

# CORREGIDOR FALLS AFTER GALLANT FIGHT

## Meandering Along the Main Stem

By WASH FAYETTE

It's too bad that some sort of public and printed recognition could not have been given the people of Washington C. H. for the way they let those soldiers, who spent the night here some time ago, know their hearts were with them. . . but it could not be . . . you may have noticed . . . and I hope you did, that there was not one word about the movement of the troops through here in the Record-Herald. . . that was voluntary censorship. . . nothing was forbidden. . . there were no orders. . . an officer of the intelligence corps simply said that the War Department would rather nothing was printed. . . might give the enemy some ideas about what America was doing. . . so, nothing was said. . . we, here in the news room, knew you would understand without being told. . . we didn't want to risk the slightest chance of giving those Japs or Heinies (Mussolini doesn't count for much any more) any information that might help them even a little bit. . . but that was long enough ago so that it can be said now that the thousands of cookies that were baked in homes all over the city. . . and in the county, too. . . were really appreciated. . . so was the improvised "recreation center" set up in the old and abandoned County Home building. . . the soldiers, from the commanding officers to the buck privates said so. . . some said it with words and others with silent smiles.

It was no small job. . . that of getting all those cookies, cleaning out the old infirmary, setting up tables for writing and cards, and doing the hundreds of other small but very important things that go to make up hospitality. . . it's difficult to name names. . . so many had a part in it. . . but there were a few who should not be overlooked even at this late time. . . there was Mrs. J. Earl Gidding who, it might be said, was in charge of the "hostess" personnel. . . and Mrs. Tom Bush, who supervised arrangements for the cookies and other eats and drinks (all very soft) and cigarettes. . . the cigarettes were given to the boys. . . they were bought with money contributed by generous individuals and the profit from the sale of the candy bars and pop and "cokes". . . there was nothing left over.

The "hostesses" were under strict orders not to tell the boys anything about where they were that they did not already know, not to mail letters for them and not to ask questions about where they had come from or to what outfit they belonged.

Shortly after the troops had moved on a letter came from L. W. Reese, former superintendent of schools here now with the Office of Defense Health and Welfare Service. . . it said in part that "the fine citizens of Washington C. H. performed a great duty with enthusiasm and initiative". . . and that "their hospitality will be long remembered by the soldiers who bivouacked near the city". . . he knew that the letter could not be printed at that time. . . that's why he said at the end "I wish I could thank every one individually on behalf of the soldiers."

Of course I do not know where those boys are now. . . but my guess is that they are safely across the sea, defending America in some foreign land. . . there were several Fayette County boys in that outfit. . . J. and others, saw and recognized them.

## YANKEE FLIERS HIT JAP BASE IN SOUTH BURMA

Forty Planes Destroyed by Raiders from India and 25 Others Damaged

## ALLIES SET BACK ON LAND

Nipponese, Hordes Reported Striking Toward India From Burma Now

(By The Associated Press)

Forty Japanese planes were destroyed and 25 others badly damaged by a heavy United States bomber squadron which struck early today in its second successive raid on Mingaladon airdrome just north of Rangoon, American sources said today.

Three flights of Major Gen. Lewis H. Brereton's bomber force in India delivered the attack this morning, starting fires that could be seen 70 miles away.

Their bombs smashed into the fire-blackened Japanese hangar and gasoline dump, left wrecked by the two previous flights of bombers the night before.

The raid was the seventh in the lower Burma area since American fliers began their aerial offensive from India April 1.

The RAF, timing its blows with the American attack, struck anew at barges bringing Japanese war material and perhaps troops up the Chindwin River on the Burma front 400 miles to the north.

The Americans met strong anti-

## OLD U.S. DESTROYER SINKS NAZI U-BOAT

Several of Crew Captured After They Escape

NEW YORK, May 6.—(P)—The Third Naval District disclosed today that another Axis undersea raider has been eliminated by the Atlantic patrol.

The job was done by an old four-stack destroyer which reported:

"The debris in the water left no doubt that the sub had gone straight to the bottom—and for good."

The destroyer surprised the sub after it had surfaced to charge its batteries. Several members of the submarine crew leaped into the sea to escape a barrage of shell fire from the destroyer and were captured.

## SOIL CONSERVATION OFFICE TO REMAIN IN DAYTON

DAYTON, May 6.—(P)—Established in 1936, the Dayton Regional Soil Conservation office will be discontinued June 30, J. S. Cutler, office chief, reported today.

While the Dayton office served Ohio, Indiana, Michigan, Kentucky and Tennessee, a new office serving Ohio only will be opened at Columbus, with the present Lima and Mount Vernon field offices disbanded, Cutler said.

The Dayton office currently employs 160 persons here and 1,200 in the region.

## Late Bulletins

By The Associated Press

**SEIZURE OF PRIVATE CARS PROVIDED IN BILL**  
WASHINGTON—Senator Hill (D-Ala.) said today that Price Administrator Leon Henderson and Robert P. Patterson, under-secretary of war, had approved in principle a pending bill to authorize the government to requisition private automobiles and pay for them.

**BRITISH CASUALTIES IN MADAGASCAR HEAVY**  
LONDON—The British are meeting determined resistance in Madagascar and casualties today have been "heavy," a communiqué reported.

**U. S. CRUISER JAPS SAID THEY SUNK ARRIVES IN PORT**  
WASHINGTON—The United States light cruiser Marblehead, which the Japanese have several times claimed to have been sunk, has arrived at an east coast port, the Navy announced today, badly damaged and torn by bombs but "very much afloat."

## Nazi War Plants Blasted Again in Allied Air Raid

LONDON, May 6.—(P)—Industrial plants in Stuttgart again were bombed by the RAF for the second night in succession last night and British raiders also attacked other targets in Southern Germany, the British reported today.

The raids were the third in a row against Germany since the start of a new series of aerial assaults Sunday on Adolf Hitler's war and industrial machines.

From these and other engagements, four bombers are missing, the Air Ministry announced.

It said the docks at Nantes were bombed again and airdromes of northern France and the low countries were attacked.

## SPRING OFFENSE IS UNDERWAY BY RUSSIA, IS TIP

Reserves Out of Siberia Now Carrying War to Nazis; Japan in Danger, Too

By HENRY C. CASSIDY

MOSCOW, May 6.—(P)—Russia's first "spring division" brought out of reserve in Siberia and thrown into action on an undisclosed sector of the front, was reported today to have won a victory over the Germans and captured an important river valley.

Red Star, mouthpiece of the Russian army, said that this vanguard of the new armies formed during the winter deep in the Soviet interior reached the front last month and proved its strength from its first fighting test.

(Russian dispatches received in London said Marshal Semeon Timoshenko's troops, striking forward in a developing campaign in the Ukraine, had beaten off several German counterattacks with heavy losses and kept the Germans from regaining their lost ground.)

(These reports said the Germans counterattacked in several sectors near industrial Kharkov and Taganrog in an attempt to break up what appeared to be a Russian spring offensive at the southern flank of the battlefield.)

Red Star reported that the "spring division" attacked Nazi forces holding both banks of a river, and on the second day of its offensive had driven the Germans

## 28-DAY SIEGE IS CLIMAXED BY NIGHT ASSAULT

Outnumbered Defenders Are Hungry and Exhausted After Long Pounding

## SHORE DEFENSES BLASTED

How Many Survive Fiery Siege Unknown but Toll Said To Have Been Heavy

By ROGER D. GREENE

(By the Associated Press)

Overwhelmingly outnumbered, hungry and exhausted, Lieutenant Jonathan Wainwright's forces surrendered to the Japanese today after 28 days of fiery siege in the battle of Manila Bay.

A war department bulletin issued at 4:15 A. M., Eastern War Time—more than 16 hours after the Japanese launched a midnight landing assault on Corregidor Island fortress—announced briefly:

" . . . Resistance of our troops has been overcome. Fighting has ceased, and terms are being arranged covering the capitulation of the island forts in Manila Bay."

Just how many survived the long ordeal of air raids and artillery bombardments was not known, but it was generally estimated there were about 7,000 men and women altogether on the fortified islands.

These included a naval detachment originally consisting of some 3,500 Marines and Blue-jackets who made their way through shark-infested waters to Corregidor when Bataan was abandoned on April 9, and a group of Army nurses.

A war department communiqué said one of the last messages received from Gen. Wainwright reported that casualties among the defenders were heavy during the last few days.

In addition to the regular garrison, about 3,500 U. S. Marines had been sheltered on Corregidor after withdrawing from Bataan Peninsula.

The communiqué said military installations on the tiny "Gibraltar of the Philippines" had also been severely damaged by constant Japanese shelling and aerial bombing.

Gen. Wainwright reported that for the fourth consecutive day there were 13 separate air attacks

## Government To Enforce Rule To Keep People Out of Debt

By IRVING PERLMETER

WASHINGTON, May 6.—(P)—The government today put a set of teeth in President Roosevelt's advice that people ought to pay their bills and keep out of debt.

With only a few hours notice, the Federal Reserve Board put into effect last midnight rules governing the credit purchase of nearly every household item except food, drugs and cosmetics.

Intended specifically to give force to the suggestion made by the President last week about getting out of debt, the rules were designed to keep people from using their credit to bid up prices that enter into the cost of living and to direct more

## UNITY IS KEYNOTE OF VICTORY DINNER

Ohio Democrats Support of FDR Is Essential

COLUMBUS, May 6.—(P)—U. S. Senator James M. Tunnell of Delaware, pleading for the election of congressmen pledged to support President Roosevelt in the prosecution of the war, declared last night:

"In my opinion, no congressman or senator should be sent to Washington on Nov. 4 if that congressman or senator has devoted himself insistently and continually to blocking the effort to defend America in the contest which all Americans saw was impending."

Tunnell addressed an Ohio Democratic party victory dinner. He predicted exultation in Axis nations if results of the November election indicated that "America had repudiated its war government, that America no longer had faith in the head of that government, that President Roosevelt was no longer supported by the American people in his great war effort."

## French Put Up Fight To Hold Madagascar

This Shows Why Madagascar Is Important

A new aggressive policy by the United Nations against the threat of Vichy-controlled French colonies is seen in the sudden landing of British forces on the island of Madagascar in the Indian Ocean. If the Japs had occupied the island, as they were reported planning to do, they could have controlled the vital United Nations' supply line around Africa to the Middle East, the Caucasus, India and the Far East, as shown on the map.

## U. S. May Seize French Bases off Panama As Result of Laval's Madagascar Policy

**BULLETIN**  
WASHINGTON, May 6.—(P)—Secretary of State Hull said today that Vichy's rejection of an American note backing up the British coup on Madagascar called for a reply, and he added grimly it would certainly receive one.

**By WADE WERNER**  
WASHINGTON, May 6.—(P)—The Vichy Government's resistance to British occupation of Madagascar was regarded in diplomatic circles today as an

act which might be construed as hostile to the United Nations and hence basis for a move against Vichy-controlled bases flanking the Panama Canal.

The United States stood ready for any western hemisphere repercussions, but there was no official indication of what President Roosevelt might do in support of the British policy of seizing French military bases before the Axis has a chance to grab them.

Chief of government Laval's sharp rejection of the American note backing Britain's Madagascar action, coupled with chief of state Petain's order to fight and Admiral Darlan's vitriolic denunciation of British "highway robbery" ended any expectation here that Vichy might take the occupation of Madagascar as philosophically as it took the Japanese occupation of French Indo-China last year. It raised in acute form the question of whether Vichy-controlled bases in the Caribbean area—Martinique, Guadeloupe and French Guiana—could be allowed to remain in Vichy hands.

Diplomatic observers pointed

to that section of the American note to Vichy which warned that "any warlike act permitted by the French Government against the government of Great Britain or of the United Nations would, of necessity, have to be regarded by the government of the United States as an attack upon the United Nations as a whole."

Vichy, these observers stressed, not only has permitted such warlike acts against the British land-

## GASOLINE RATION HALF 1941 SUPPLY

Eastern Motorists May Get Only 5 Gallons a Week

WASHINGTON, May 6.—(P)—A gasoline limit of five to six gallons a week for many eastern motorists was indicated today in a War Production Board order cutting consumption in the seaboard area to one-half that of last year starting May 16, when rationing becomes effective.

Gasoline consumption in the east and Oregon and Washington already is cut to two-thirds normal. The new order made no mention of the northwestern states and there was speculation that restrictions might be lifted there because of improved supply conditions.

The WPB order also limited consumption of light fuel oil, the kind used in house heating, to 50 percent of normal beginning May 16 in the 17 eastern states and the District of Columbia.

## 5 BOYS AND GIRLS KILLED IN CRASH

Train Hits Car While Radio Drowns Out Approach

NEWARK, May 6.—(P)—An after school joy-ride ended in death for five "teen-age youngsters because their blaring automobile radio prevented them from hearing the approach of a fast passenger train, officers theorized today.

Highway patrolmen and sheriff's deputies said that the radio played on in the demolished car after the crash.

The train hurled the vehicle 100 yards down the track as bodies of the youngsters were strewn along the right of way.

The accident occurred at the Baltimore and Ohio railroad crossing two miles east of here yesterday afternoon.

Police investigators are unable to determine whether the youngsters were drinking or whether the car was overloaded.

Mrs. W. J. "Red" Loefer, fully clothed, was found on her bed.

## FIND WOMAN'S BODY IN CALIFORNIA HOME

LOS ANGELES, May 6.—(P)—The corpse of a woman tentatively identified as Mrs. Rose M. Whitmore, about 50 and formerly of New York City, was found in her recently-purchased home last night, her head battered with a car jack handle.

She presumably had been dead since April 27.

Police Capt. Vernon Rasmussen broadcast an order for the arrest of a ruddy, grey-haired man, about 55 and 6 feet tall, to whom he said Mrs. Whitmore had been married recently. He did not give the man's name.

Police investigators are unable to determine whether the woman was drinking or whether the car was overloaded.

Mrs. W. J. "Red" Loefer, fully clothed, was found on her bed.

## ARMY COMMISSIONS WON'T BE RESTRICTED

House Committee Reverses Earlier Intentions

WASHINGTON, May 6.—(P)—Reversing its previous stand after a snowballing controversy, the house military committee today favored giving the war department the green light in commissioning civilians for special duty.

The committee voted late yesterday to knock out a rider in the service pay increase bill that would have limited issuance of army commissions to officer-trained men, except in the cases of doctors, dentists, veterinarians and chaplains.

The committee substituted an amendment allowing the war department to use its discretion in commissioning civilians having no military training but possessing "special knowledge, skill, training or experience."

## GRIM SOUVENIRS OF WAR TO BE SENT TO AMERICA

LONDON.—(P)—Sir Smedley Crooke proposed in the house of commons today that blocks of stone from its Nazi-bombed chamber be sent to the United States congress and the parliament of the dominions, each inscribed as a symbol of a "common resolution to wage war in defense of Democratic government."

The fugitives, Lieutenant Reinhardt Pfundtner and Ernst Wagner of the German air force, disappeared from the Bowmanville, Ont., camp yesterday.

Wagner was a ski instructor in New York and Montreal in 1937 and 1938.

The damaged plane was deserted. The Germans still were being sought.

## Two Escaped German War Prisoners Blamed for Crash of Stolen Plane

TORONTO, May 6.—(P)—A training plane was stolen from Barker Field at 3:49 A. M. today and crashed soon afterward a quarter-mile away.

The officials expressed surprise that the German war plane of war had been taken on the plane in a vain attempt to hasten their flight.

## BRITISH FORCE SUBJECTED TO AERIAL ATTACK

Occupation of Island Is Progressing, However, To Protect Allied Supplies

(By the Associated Press)

Tank-led British commandos were reported battling French Colonial troops on the outskirts of Diego Suarez today as Vichy reports indicated that the fall of that key naval base on Madagascar Island was imminent.

RAF warplanes dominated the skies over Diego Suarez, on the northern end of the big island, and British warships were reported in firm command of the surrounding seas.

The commandos, leading the assault, had plunged 20 miles through the jungles against "stiffening French resistance" to reach the gates of the naval base.

Meanwhile, Washington considered a possible United States move against Vichy-controlled bases flanking the Panama Canal since Vichy France has defied a United States warning against resistance to the British on Madagascar.

Washington diplomatic sources said the Vichy government's fight against British occupation at Madagascar Island could be construed as hostile to the United Nations and that it raised the question of whether French bases in the Caribbean—Martinique, Guadeloupe and French Guiana—should be allowed to remain in Vichy hands.

A bulletin from French headquarters on Madagascar said the island's entire air force had been thrown into action against renewed British bombing attacks and declared:

"We are resisting along the first line of redoubts."

London military quarters said the British commandos, infantry and marines who landed on the 1,000-mile-long island at dawn Tuesday were now closing in on the key Diego Suarez naval base.

These quarters acknowledged that the island's defenders, under orders from Vichy to fight to the end, were putting up sharp resistance but said the British advance was progressing "satisfactorily."

Vichy reports last night said the British, estimated by the French at 20,000 troops, had reached the town of Andrakaka, only four miles from Diego Suarez.

The German-controlled Paris radio said: "Fighting has been going on in Madagascar for 24 hours, and a handful of French Colonials, without hope of help or reinforcements from the home country, has been fighting step by step against the British aggressors."

Acting with the full consent of the United States, the British

## FIVE JAP ATTACKS ON WAKE REPULSED

Yank Defenders of Pacific Isle Are Praised

PEARL HARBOR, May 6.—(P)—Five times the Japanese have attacked Midway Island since their surprise raid on Pearl Harbor December 7 precipitated war in the Pacific, and five times they have been repulsed by the defenders of the little United States outpost 1,149 miles northwest of Hawaii.

Details of the gallant defense were disclosed today following the return of Admiral Chester W. Nimitz, commander-in-chief of the Pacific fleet, from an inspection of Midway, where he awarded honors to Marine Corps and naval personnel who helped thwart the attacks.

SUIT TO BREAK DR. J. M. BOYD'S WILL IS FILED

Large Number of Relatives File Action Against Beneficiaries

Suit to set aside the will of Dr. J. M. Boyd, former well-known resident of Washington C. H., who died last fall, has been filed in the Fayette County Common Pleas Court by numerous relatives, who are represented by Druggan and Gingham and J. Paul McNamra, Columbus attorneys.

Plaintiffs state they are the heirs of Dr. John M. Boyd, who died October 28, 1941, leaving an estate, and that a paper writing filed Nov. 8, 1941, purporting to be the last will and testament of John M. Boyd was filed and Ed L. Bush duly qualified as the executor of the instrument. Plaintiffs claim the will is not the last will and testament of Dr. Boyd.

Under terms of the will, it is set forth, the several defendants in the action were named beneficiaries.

The bulk of the estate of around \$65,000 was given to Rose N. Hughey, with the St. Andrews Mission being the next largest beneficiary under the will.

Plaintiffs ask that issue be made up as to whether the said paper writing is the last will and testament of Dr. Boyd, and that it be set aside and held void, and for other relief.

The plaintiffs and defendants are listed below:

Frank M. Thornburg, Columbus; William Thornburg, New Vienna; Alice Thornburg, Leesburg; Jesse Thornburg, Leesburg; Margaret Johnson, New Vienna; Florence Fawley, Lynchburg; Ella Dick, Hillsboro; Ephraim Small, Leesburg; Carey Evans, Highland; Lenora T. Patton, Leesburg; Amy T. Jackson, Leesburg; Frances Allen, Athens; Ida Titus, Columbus; Joseph Everhart, Columbus; and Mildred Trout, Columbus, against:

Rose N. Hughey, Washington C. H.; William T. Pitt, Miami, Fla.; Florence Everhart, Columbus; Melba McCoy, Greenfield; Geraldine McCoy, Greenfield; Thomas McCoy, Greenfield; Russell McCoy, Jr., Greenfield; Trustees of St. Andrews Mission, Washington C. H.; Sarah Barger, El Paso, Texas; Helen Boyd, Hillsboro; Blair Boyd, Hillsboro; Florence Everhart, Columbus; Lamar Thornburg, New Vienna; E. E. Terrell, Wilmington; Howard Terrell, Highland; Wendell Terrell, Whittier, Calif.; Mary Starbuck, Whittier, Calif.; Ed L. Bush, executor of the purported last will of John M. Boyd, deceased and the unknown heirs of John M. Boyd, deceased.

FRANK W. TURNER SELLS PROPERTY NEAR CITY

Mr. and Mrs. Samuel C. Bevinger, of Columbus, have purchased the Frank W. Turner property on the Jeffersonville road, 1 1/2 miles northwest of Washington C. H., and will make their future home there.

The property consists of a stone house and nine acres of land, opposite the intersection of the Prairie road with the Jeffersonville road.

Bevinger is contact agent at Wright Field.

SALE OF PREPAID TAX RECEIPTS DOWN

Sale of prepaid sales tax receipts in Ohio for the week ending April 25, totaled \$1,018,026, down \$154,722 from the corresponding 1941 week, State Treasurer Don H. Ebright reported today.

The decline, he said, reflected shortages brought on by the war.

In Fayette County the drop was from \$2894.27 for the week last year to \$1,964.06 this year.

Mainly About People

SUGAR RATION REGISTRATION RUNS SMOOTHLY

Confusion of First Day Is Eliminated as Additional Registrars Put On

Nearly half of the men, women and children of Fayette County had registered for the War Ration Books at the end of the second day of the registration period, Ralph R. Penn, the county rationing administrator, said Wednesday morning as preparations were made for the third day of registration.

Penn said an unofficial check on the first two days of registration showed that 4,900 more had registered in both the city and county on Tuesday and that of these, 4,733 had been issued ration books.

Of Wednesday's registrants, 2,163 were residents of Washington C. H. and 2,570 lived in the rural sections of the county and in its villages.

On the first day, Monday, 6,083 registered and 5,980 were given ration books. That brought the total registered to 11,078 at the half-way mark and the total who had been given books to 10,713. Ration books cannot be given to families which have more than two pounds of sugar per person in their possession, Penn explained.

The registration, Penn said, is progressing satisfactorily and with no complications in the rural sections and villages.

In Washington C. H. the confusion and congestion that jammed the five grade school buildings and had the teachers and few volunteers nearly exhausted after more than seven hours of high-pressure work, was missing the second day. Superintendent A. B. Murray, who was supervising the city registration, had promised a remedy for the situation of the opening day. And, he kept his promise.

The number of registrants was nearly doubled on Tuesday. The new workers were taken from among the high school students and volunteers who had helped in the emergency of the first day.

The waiting was reduced to a matter of minutes, with few exceptions, on Tuesday where it had run into hours on Monday.

JUNIOR TYPISTS MUCH IN DEMAND

Tests at High School Here Friday Afternoon

There are still positions open at Wright Field, Dayton, for junior typists and stenographers and a representative of the federal Civil Service Commission will be in Washington C. H. Friday to conduct examinations for applicants, Howard C. Allen, clerk and examiner for the commission in Fayette County said Thursday afternoon when he announced that the tests would be held at the high school building starting at 1 P. M. Friday.

Allen said several of this year's senior high school class had signified their intentions of seeking appointments and added that they would take the examinations. However, he added, "we want everyone to have an opportunity to help serve in the country's war effort through taking these positions if qualified."

The clerk of the commission here said it would save time for the applicants if they made out their application blanks "before going to the high school for the examinations. He added that he had these and that they could be obtained by calling for him at the Post Office here between 7 A. M. and noon Friday.

BONDS WORTH \$1,000,000 ARE BOUGHT BY UNION

WASHINGTON, May 6.—(AP)—The United Mine Workers of America (CIO) bought \$1,000,000 worth of a new issue of treasury bonds today.

Secretary-Treasurer Thomas Kennedy also presented a \$35,000 check from the miners' treasury to the Army Emergency Relief Association, duplicating a similar donation the Union made recently to the Navy Relief Fund.

GOVERNMENT TO ENFORCE NEW RULE TO KEEP PEOPLE OUT OF DEBT DURING WAR

(Continued From Page One)

on regular charge accounts or on the installment plan.

It was the first time that ordinary charge accounts were touched by board regulations. If an item on the restricted list is charged, it must be paid for by the tenth day of the second month after the purchase, or the customer's credit must be shut off on all listed articles. The penalty may be avoided, however, if the merchant and customer are willing to sign an agreement to clean up the debt in fixed installments during the following six months.

As to installment credit, the new requirements are for larger down payments and shorter time to pay the balance. On most items, the rule is one-third down and a year to pay, except that the monthly payment must be at least \$5 even if that shortens the payment time.

Both the new charge account and installment credit rules apply to a wider list of articles than ever was covered by previous regulations for installment credit alone. Added to the list of restricted items were such categories as all non-military clothing, luggage, sports and game equipment, all table and kitchen ware, automobile accessories, bedding, linens, all household electrical appliances, yard goods and used furniture. These items were added to former lists which already included new furniture, radios, refrigerators, vacuum cleaners, stoves, musical instruments, silverware and plumbing fixtures.

Cash loans under \$1,500 from banks or other lenders also were held down to a maximum of 12 months to pay, and in some cases 90 days. Former rules applied only to cash loans to be repaid on the installment plan, but the new regulation also applies to loans to be repaid in lump sums.

In applying the new rule on charge accounts, the board, in effect, counted past purchases of listed items as having been made today. Unpaid accounts involving listed articles now on store books must be cleaned up—or installment terms arranged—by July 10.

The charge account rule allows between 40 and 70 days for payment. For instance, articles bought on June 1, June 15 or June 30 all become due on August 10—"the tenth day of the second month after the month in which the purchase was made."

Usual exceptions or extensions were granted for special cases, including student loans, loans, credit to farmers and others with seasonal income, and impoverished persons.

ing forces but has ordered them. Therefore if such action is regarded as "an attack upon the United Nations as a whole," all French overseas bases under Vichy control must be regarded as hostile bases.

Informed sources did not attach great weight to Laval's assertion that, despite American support of the British Madagascar action, Vichy would not make a first move toward rupture of relations with the United States.

Observers here expect a solution to the problem of Martinique to be announced soon.

Vichy was warned by Secretary of State Hull yesterday that American ships and troops were ready.

Hull did not disclose this government's intentions with regard to French possessions in the Panama Canal deefs area. He told his press conference that Martinique was receiving attention along with other phases of the French situation and that this government would determine from day to day what it would do to meet the emergency of the moment.

U. S. MAY SEIZE BASES OFF PANAMA AS RESULT OF LAVAL'S RESISTANCE

NEW YORK, May 6.—(AP)—The demand for ship-building materials has risen so sharply since the United States entered the war that it will be several months before steel plate production equals war demand, the Iron Age said today.

Ship production has been limited, the magazine added, by the output of plate and propulsion equipment.

The trade journal said that several railroad car building shops were turning out ships or ship parts, and that at various inland industrial centers submarines, sub-chasers and other types of boats were being built in increasing numbers.

RICHARD W. HAYS NEW PRESIDENT OF EAGLES HERE

Unity and Harmony Among Members Evidenced by Unanimous Selections

Richard W. Hays is the new worshipful president of the Eagles Lodge here. He was chosen to succeed Albert R. Bryant at the 39th annual election of the Aerie Tuesday night.

Loring Harrop was named worthy vice president to fill the vacancy caused when Sergeant James (Red) Ducey returned to active duty with the United States Marine Corps.

Other officers chosen Tuesday night were: J. Howard Porter secretary, Glenn B. Rodgers, treasurer; Frank Snyder, trustee; Howard W. Burnett, chaplain; Paul Rumer, worshipful conductor; W. C. Buchanan, inside guard and Chester Marshall, outside guard.

Robert Bailey, commenting on the election said, that "the unanimous approval of the candidates is evidence of the fine spirit and co-operation existing between the Aerie and its officers." Continuing, he added that this unity and harmony among the members "is largely responsible for the unusually successful year just completed."

The Aerie which was founded here in 1903 now has 714 members. Bailey said, adding that 214 new members have been taken into the lodge to date this year.

A buffet luncheon was served following the election.

ing forces but has ordered them. Therefore if such action is regarded as "an attack upon the United Nations as a whole," all French overseas bases under Vichy control must be regarded as hostile bases.

Informed sources did not attach great weight to Laval's assertion that, despite American support of the British Madagascar action, Vichy would not make a first move toward rupture of relations with the United States.

Observers here expect a solution to the problem of Martinique to be announced soon.

Vichy was warned by Secretary of State Hull yesterday that American ships and troops were ready.

Hull did not disclose this government's intentions with regard to French possessions in the Panama Canal deefs area. He told his press conference that Martinique was receiving attention along with other phases of the French situation and that this government would determine from day to day what it would do to meet the emergency of the moment.

NEW YORK, May 6.—(AP)—The demand for ship-building materials has risen so sharply since the United States entered the war that it will be several months before steel plate production equals war demand, the Iron Age said today.

Ship production has been limited, the magazine added, by the output of plate and propulsion equipment.

The trade journal said that several railroad car building shops were turning out ships or ship parts, and that at various inland industrial centers submarines, sub-chasers and other types of boats were being built in increasing numbers.

from their positions on one bank and captured a village there despite strong resistance.

Izvestia, government organ, declared editorially that "the war has entered new stages" and said the Red army had begun "successful advance" instead of "active defense."

Japan In Danger, Too

The army organ Red Star also said today that Allied aviation in the Pacific was taking to the offensive and that "despite the tremendous distance separating Japan from the main Anglo-American bases any of the main military, industrial and strategic centers of Japan may be exposed to raids from modern American bombers."

In a half-page study of the Pacific war, Red Star said the Allies had held qualitative air superiority from the start but had been considerably inferior to the Japanese in numbers in the initial stages.

Citing foreign press reports that the Allies had used British hurricanes and American tomahawks and flying fortresses against Japanese 1-97 fighters, PB-99, SB-97 and T-97 bombers, Red Star said that even though Allied forces lacked their best fighters, such as the Russian-praised Aerobas and Spitfires, they were "noticeably superior" to the Japanese in speed, load and firepower.

With Japan obliged to scatter her forces "one may presume that" in the further development of air operations over the Pacific the activity of Anglo-American aviation will increase," the article said.

JUROR WAS DRUNK IN BOOTLEG CASE

Unusual Incident Occurs in Hillsboro Trial

HILLSBORO, May 6 (Spcl)—A bootleg trial failed here yesterday because one of the jurors was drunk, and a rehearing of the case will be necessary.

Roy Kittrels was being tried on a bootlegging charge, and when Matt Collins, 53, farmer, was discovered to be drunk, Judge George W. McDowell, in Common Pleas Court, fined Collins \$100 for contempt of court and sent him to jail until the amount is paid.

The state had just completed presentation of its case when someone noticed Collins was anything but an alert juror.

Red with anger, Judge McDowell dismissed the jury and fined Collins with these words: "Never before in my legal career have I heard of such a thing. This court has been insulted, disgraced, and embarrassed. It is the most shameful thing that could occur in a Hall of Justice."

The case is expected to be retried in the next term of court. The jury disagreed in Kittrels' first trial.

SPRINGFIELD FUGITIVES CAPTURED IN HAMILTON

HAMILTON, May 6.—(AP)—City police and state highway patrolmen early today captured two men identified by Police Chief John C. Calhoun as participants in a six-man escape from the Springfield City jail Saturday.

Calhoun said one, Clovis Colwell, 21, of Springfield, was picked up on a street corner and the other, Melvin Blanton, 30, of Hamilton, was found under a truck armed with a baseball bat. Neither offered any resistance.

# Jeff Tightens Grip On Baseball Title As Burg Beaten, 2-1

The Jeffersonville High School's baseball team edged out the Bloomington nine by a 2 to 1 score Tuesday evening at Bloomington and thereby tightened their grip on the 1941-42 County League title.

The Tigers won all of their games on the first half of the loop scheduled, which was played last autumn. Going into the spring half of the slate undefeated, they battled to the bitter end against a determined Bloomington team to keep the records clean. It was one of the hardest fought games in years in the league.

The Bloomingtoners still have a chance to knock their old rivals off the top perch and, judging by the Tuesday evening set-to, fans are looking forward to some of the best ball of the season when they meet Thursday evening to play the deciding game.

Due to the delicacy of the situation and the balance between the two teams, a neutral diamond is wanted for the crucial contest. If arrangements can be made, it was said, the title game will be played in Washington C. H. at Wilson Field.

Creamer was on the mound for the Tigers Tuesday evening and Ryan did the pitching for the B boys.

## Lions Beat Indians, 5-2, at Hillsboro Behind Two-Hit Pitching of Wackman

The Blue Lion baseball team handed the Hillsboro Indians a 5 to 2 beating on their own lot Tuesday afternoon behind the two-hit pitching of Wackman.

The start of the game was delayed so long it was called by mutual agreement at the end of five innings. The cause of the delay appeared uncertain.

The Lions went down in order in the first inning but the Indians took advantage of a situation and went into a lead in their half when Reed, the Hills-

## Giants Lose To Reds, 2-1; Bucky Hurls

CINCINNATI, May 6.—(AP)—A somewhat streamlined Ernie Lombardi was welcomed back to Crosley Field today as the Braves and Reds opened their 1942 competition with the first of a two-game series.

The big Californian who backstopped for the Reds for a decade was benched yesterday while Rookie Catcher Clyde Kluttz's three hits helped Boston to a 7-1 victory over the Pirates.

But regardless of how "Big Schonz" fares with the Beantowners, he's still a hero here and certain to get the nearest thing to an ovation the slim turnouts these days can give.

The Reds closed a three-game series with the New York Giants yesterday by clinching the rubber game 2-1 in 10 innings. The victory—fourth in the last five for the Reds—was gratifying, but more heartening was Bucky Walters' pitching.

Walters has lost four games and been driven from the mound in three straight starts prior to yesterday.

Bucky's sinker and fast ball were working again and he set the Giants down with five hits.

SEDITIONOUS PUBLICATIONS

That there should be a decisive government effort to put a stop to those publications, which to say the least, are insidiously attempting to undermine our war effort and create dissension toward genuinely patriotic endeavors, is generally agreed by all true Americans.

There is a vast difference between patriotic and earnest criticism which is meant to stop extravagances and demand more efficiency in our government effort, and those harmful publications, which print things designed to cause the unthinking to doubt the justice of our cause.

Judging by the comment one hears a vast majority of people were pleased when the publication "Social Justice" originally sponsored by Father Coughlin was given the works.

Now Attorney General Biddle has announced his readiness to go after a lot more of what is termed "dirty little sheets" which are alleged to be preaching sedition, defeatism, anti-democracy doctrines.

There can be little question but that the attorney general has a fertile field in which to work.

This nation at war, fighting not only for the theoretical cause of democracy but for its very existence, has been tolerating too many "dirty little sheets" which have no possible excuse for existence.

Few of them, individually, do much harm. Their circulation is limited. Their prestige is nil. They are read principally by men and women whose loyalty ranges from passivity to non-existence.

The Department of Justice has stripped the gears of "Copperhead Notes" by its action against Ellis O. Jones and the deserter Robert Noble, and of the vicious "Galilean" by the arrest of William Dudley Pelley.

But there still remain at least a hundred subversive daily and weekly printed and mimeographed sheets which, by design or coincidence, play Hitler's game in this country.

There is "The Broom," issued in that highly strategic defense city, San Diego. Its tone may be judged from its discovery that V (for Victory) actually is a Jewish symbol standing for "Violence, Vengeance and Sabotage."

This is reminiscent of the expose by X-Ray," of Muncie, Ind., that the V dates from the feast of Belshazzar. The context in which "X-Ray" publicizes its learning may be judged from a February article warning that the Jews are seeking

Today's Horoscope  
Today's birthday child has a warm, gentle nature, but is often too reserved with those he or she esteems. Perseverance in trying to improve is evidenced, but such a person is easily discouraged by failure. The next year will be an exceptionally fortunate, happy one for this person. Beneficial changes, happy love affair, marriage or social prominence are foreseen, but speculative enterprises should be avoided. Remarkable talents, capabilities, breadth of vision, faithfulness and courage will be the possession of the child who is born on this date. Great success and popularity are assured. However, speculation will be vest avoided.

ing to mingle their own and Negro blood with that of other races through the blood banks which have been established for transfusions for our war wounded.

How can a nation at war continue to tolerate "Publicity," published by E. J. Garner at Wichita, which commented on Pearl Harbor:

"The Japs did Sunday just what Secretary of State Hull and his war-mongering pal, Lord Halifax, of London, have been longing for—they attacked Honolulu and the Philippines. Now the United States has a war on its hands, so then what?"

By citation and quotation, space permitting, the case against these and scores of others could be made irrefutable. Truly, Mr. Biddle was restrained in the best Philadelphia Quaker tradition when he confined his epithet to "dirty little sheets."

We can fight this war very well without such publications or their authors and sponsors.

Washington at a Glance By Charles P. Stewart

Latin America is profiting handsomely on the business it's getting from the United States while we Yankees are so much pre-occupied with our war that we can't adequately supply ourselves with a lot of things we previously were in the habit of producing on our own account, and consequently are buying on a vastly increased scale from the neighbors.

There's some wondering, though, if the readjustments that they're making in their various lines of activity won't prove to be of the wrong sort when the conflict's over and they lose a deal of our trade, and if it won't leave 'em in pretty bad economic shape.

We're well aware here, from our last experience, that a post-war period can be about as tough as the war itself, which is why we're making such strenuous efforts not to inflate into a boom that'll pop later on. Whether or not we'll succeed remains to be seen, but we're trying, anyway. The Latins, however, seem, from all reports, to assume that present prosperous times will continue forevermore, and simply are letting nature take its course.

The southern republics always have been big producers of raw materials, but not manufacturers to any extent. Now we're asking 'em to do that, too, our plants being completely swamped. We're even financing 'em in the establishment of industries and sending a few experts to get 'em started, with local manpower, such as it is. There isn't enough of it and delay's involved in the

training process, but it's being hustled as fast as possible.

Mexico Building Boats  
Mexico, as geographically the most convenient of the neighboring group, is being industrialized at a very fair lick. Dr. Ezequiel Padilla, the republic's minister of foreign affairs, and Undersecretary Sumner Welles fixed up a mutually highly satisfactory bargain in our two countries' interests during the Washington visit paid by the doctor a short time ago. Among other things, the Mexicans are to build for us a sizable fleet of wooden cargo boats, wood not being as easy as a metal hull for a submarine to sink.

Brazil's being attended to likewise and so is all the rest of the southern brood, somewhat excepting Argentina and Chile, which aren't overly high in Yankee favor, due to their reluctance to break relations with the Axis when we and all the other New World Latin governments did. There's a bit of guessing to be sure, that the Buenos Aires and Santiago regimes before long will yield on the subject of continued maintenance of their Axis diplomatic ties, for the sake of their full allowance of the economic gravy Uncle Sam is dishing out the 18 others in the bunch below the Rio Grande.

It naturally makes things hum in a smallish country (that is, rather skimpy populated; several of 'em have lots of area) to have a nation like the United States financing it to beat four-of-a-kind. At least it has every appear-

ance of tremendous prosperity while it's going on.  
It Can't Go On  
The question is: What'll happen when peace returns and the United States gets back into its own industrial production and cuts drastically down on its Latin-American spending?  
The current endeavor is to make over 18 or 20 almost wholly agricultural and pastoral nationalities, with some little mixture of miners and miscellaneous workers among 'em, into as nearly 100 per cent of factory hands as can be managed.  
But when Uncle Samuel ceases to require their factories' output? The factories will go broke, it would appear, and do it wholesale. It's true, the capitalistic investors' loss will hit Uncle Sam principally, for he's establishing the industries, but that won't help the rank-and-file of local folk who, by that time, will be dependent on jobs in 'em.  
They're being deliberately and virtually forcibly trained into mechanics and artisans—city dwellers, in the midst of movies, gas, electricity, telephones, beer halls schools for their children and all the other conveniences of modern urban life and at tolerably good wages, incidentally.  
Will they enjoy returning to cattle punching, crop raising and rubber gathering, if those upper Amazon gum trees ever succeed in being tamed from the wild state into regular plantations?  
And the countries' economies, of course, will be something to write home about.

Many Babies and Children Are Helped by Operations

By LOGAN CLENDENING, M. D.  
IN A GROUP of people the other day, when it was mentioned that a neighbor's baby had to undergo an abdominal operation, someone said, "I didn't know babies and children ever had such things,"

Dr. Clendening will answer questions of general interest only, and then only through his column.

As a matter of fact, while the necessity for abdominal operations in children arises much less frequently than in adults, they are not at all uncommon and surgeons believe that young persons are excellent surgical subjects, provided the treatment is conducted by qualified surgeons, the hospital equipment is adapted to the needs of the infant and child, the anesthetic is well-chosen and skillfully administered and that certain special equipment and instruments that may be necessary are available.

Even a newborn baby will tolerate an abdominal operation of considerable magnitude. There are several developmental conditions that require surgery immediately after birth; for instance, diaphragmatic hernia or "upside-down stomach" and certain forms of intestinal obstruction.

In early life, a few weeks after birth, a form of obstruction to the outlet of the stomach may make itself known. The infant nurses greedily, only to vomit all the feeding within a few minutes. If allowed to go untreated, these babies lose weight and present a pitiful appearance of emaciation. In children's hospitals where large numbers of the patients are treated surgically, 99 out of 100 are permanently cured by an operation on the stomach.

Intestinal Obstruction  
The seventh or eighth month of life is the time when a certain form of intestinal obstruction is most frequently observed. This is a telescoping of the bowel, or intussusception. This comes on very suddenly, with evidences of severe colicky pain, causing the baby to draw his legs up, cry and become pale. Later, mucous and blood may be passed in the stool. The condition is relatively infrequent, but operation is the only known way to save life and should be done early.

Ruptures of several types are seen in the young and operation is indicated as the only form of treatment in most cases. There is no reason why they should be allowed to linger on and no reason why a baby or child who is otherwise well cannot be cured surgically at almost any age. The end results of operation for rupture appear to be better when performed in early rather than in adult life.  
Acute Appendicitis  
No discussion of the subject of abdominal surgery in childhood would be complete without mentioning one of the great menaces to young life—acute appendicitis. In childhood the appendix is placed low, is relatively large and the omentum, which protects adults, is short. Nature, in other words, provides none of the protections to children with appendicitis that it does to adults.  
Surgical interference must be prompt and efficient in these cases if life is to be spared. In babies the recognition of colic and abdominal pain is naturally not as easy as in adults, but in babies as well as in adults, the use of cathartics in any acute colic is to be avoided except under medical advice. Cathartics seldom do any good and may make a mild condition very much worse.  
QUESTIONS AND ANSWERS  
E. L.:—Would arthritis cause one's teeth to become sensitive to hot or cold drinks? What should be done for sensitive teeth?  
Answer: Sensitive teeth of the kind you describe usually mean some infection or derangement of the teeth and instead of arthritis, causing this, it is not unlikely that this causes the arthritis. The only thing to be done for sensitive teeth is to have a thorough dental examination, including X-rays, and clear up the fundamental trouble.  
M. L.:—Can diphtheria in childhood cause physical weakness in later life?  
Answer: Yes, one of the rare but unfortunate sequelae of diphtheria is a form of paralysis or semi-paralysis which may affect any muscle in the body.

SYNOPSIS  
Three young airline hostesses, TIBBY LANE, sweet and natural; STEENA WINTERS, beautiful and sophisticated; and MARG BAKER, plain, sturdy and direct, share an apartment together in New York, where they are based. A friend of Tibby's, TOMMY DARE, is spending his first year out of medical school at a clinic in Brooklyn. Steena sets her cap for WAYNE COURTRIGHT, wealthy official of the airline.

CHAPTER SIXTEEN  
THERE WAS NO denying now that there was tension in the little apartment, but it was the tension of anxiety. Waiting is always a strain, so that now, although there were three of them to share it—Tommy, Steena and Tibby—it was not lightened.

After a while, Steena said she believed she would change, if they would excuse her a few minutes. This last with one of her rare smiles for the young doctor. "I'm never comfortable in uniform," she explained. "Somehow I don't feel like a woman."

Tibby wondered how she could care how she felt or how she looked when Marg was in such grave danger, but were Steena herself in a crack-up she probably would be concerned as to her appearance. It was not due to heartlessness on Steena's part; it was just the fastidiousness that went with being so beautiful.

Steena had looked attractive enough in her uniform—womanly enough, too—but when she reappeared, wearing a lovely satin housecoat of sea green, a matching ribbon in her gorgeous hair, it was easy to see what she had meant by her remark, for now she looked positively alluring.

Had she gotten herself up like that just for Tommy? Tibby wondered. And then was ashamed at such a shoddy thought. Steena could not have helped spreading her feathers, like a peacock, been the only male in the vicinity been the janitor.

Nevertheless, the effect was not wasted on Dr. Dare, as was quite evident from the way his eyes approved the change in costume. He even said, "I don't like women in uniforms, either. I quite agree with you, Steena, that there's something well, mannish about the best of them." "Not," he added with that gallantry that Tibby had noted he always brought out for Steena's benefit, "that you—or Tibby—could ever be mistaken for a man."

He got another smile from Steena for this, but Tibby did not think this was the time for fancy speeches. Besides, he had included her only to be polite. She said, "Suppose I make some coffee?" That would help put in this dreadful waiting. It might help them to

Sounds Like a Yodel, But It Stretches

By SAM JACKSON  
(Wide World News Service)  
SALINAS, Calif.—Uncle Sam is plainly in earnest about meeting part of his wartime rubber needs with that scrawny little desert shrub that has a name like a cowboy yodel.

You spell it guayule, but pronounce it wy-YOO-lay—and the longer you can draw out that yoo-o-o the nearer you are to a genuine Mexican guayule fancier.

It was only March 5 that the President signed a bill authorizing the Department of Agriculture to acquire the guayule experiment from a private company. Already the Forest Service has 100 executives and technicians in this little city, has 300 laborers at work and indirectly employs 200 more through private contractors.

950 Miles Of Boards  
Guayule is being planted on vacant land and between rows of bean and beet crops. Twenty-two thousand nursery beds to start the plants are being prepared. The wooden "duck boards" on which harvesting machinery must run have been ordered to the total length of 950 miles.

Here the nation expects to produce thousands of tons of natural rubber which, with a parallel effort in synthetic rubber can, theoretically at least, meet all army needs and perhaps produce the 36,000,000 tires which the public uses in a good motoring year.

Guayule is almost—but not quite—as good as the No. 1 grade of East Indian rubber. When its 20 percent of resin is removed it makes tires that wear 90 percent as well as the standard kind.

Holland-Owned Company  
Immediate handicap is the small amount of seed on hand and the inefficient methods thus far developed in harvesting seed. Therefore, much of the early effort of Maj. Evan W. Kelley will be directed not to producing rubber itself but

## Former Druggist And Bride To Reside in Detroit

Coming as a surprise to relatives and friends in Washington C. H., is the announcement of the marriage of Mr. Harry Shepherd and Miss Yolanda Barney, daughter of Mr. and Mrs. John Barney, of Uniontown, Pa. The marriage took place in Napoleon, Ohio, March 31.

The bride wore for her marriage, a suit of pale blue with navy accessories, and her flowers were a corsage of orchids. The attendants were Mr. and Mrs. John Dynes, of New York, and Miss Jennie Ozark, of Detroit, Michigan.

Following the ceremony, a reception was held at the Book-Cadillac Hotel, in Detroit.

Mr. Shepherd is a graduate of the Washington C. H., High School, and the Cincinnati College of Pharmacy. He is now associated with the Cunningham Drug Company in Detroit, where the couple are making their home at 2215 Field Avenue. While in this city, he was employed at the Finley Corner Drug Store.

Mr. Shepherd is the nephew of Mr. and Mrs. M. E. Stewart, of 806 South Main Street.

## Rotary Club To Have Founders Day, May 25th

Since the Washington C. H. Rotary Club was sponsored by the Chillicothe Club some twenty-two years ago, and Washington instituted the Greenfield Club twenty years ago this month, plans are being formulated for a founder's day meeting to be held in The Washington Country Club, Monday, May 25th, for the members of the three clubs.

It is hoped that a full quota of members of the local club, and a very good representation of the other two, will be present.

A program is being planned for the evening, and will be extremely entertaining, with a dinner served by Mrs. Hazel Devins, club hostess, preceding the entertainment.

### Sixty-sixth Birthday

Mrs. George Lansing, Sr., of near Yatesville, was a congenial hostess Sunday, when she entertained with a surprise basket dinner, the affair in compliment to her husband, on his sixty-sixth birthday.

The guests had come with well-filled baskets and the bountiful luncheon was served from the dining table.

The guest list included Mr. and Mrs. Homer Straley, Mr. and Mrs. Roger Straley, Mr. and Mrs. Harold Barnett and daughter, Beverly Jane, of Springfield; Mr. and Mrs. Alvie Armitage and children, of Givens Station; Mr. and Mrs. Clarence Wing, Mr. and Mrs. Wesley Rehem, Mr. and Mrs. Ray Gordon and family, of South Charleston; Mr. and Mrs. Joe McKenzie, Mr. Burch Dunn, of South Solon; Mr. and Mrs. Albert Stoughton, Miss Cleta Shepherd and Mr. and Mrs. James Miller, of Bookwalter; Mr. and Mrs. Forrest Lansin and son, Ronald Eugene, of Sedalia; Mr. and Mrs. Sheridan Butcher, of Jeffersonville; Mrs. Clara Zimmerman and Mr. Al Lansing, of Washington C. H.; Mr. and Mrs. George Lansing, Jr., and daughter and Mr. and Mrs. Orville Miller, of Bloomington.

### Springfield Ladies Entertained

Mrs. Joseph Coberly was a congenial hostess to a group of ladies from Springfield, Tuesday, and entertained with a covered dish luncheon and an afternoon of bridge.

The guests especially enjoyed the lovely home with its profusion of fragrant spring flowers, effectively arranged.

Mrs. Coberly presented a beautiful gift to Mrs. Grant Tolin, for high score in the bridge game.

### Phi Theta Class

The Phi Theta Class of the First Baptist Church met at the home of Mrs. Harry Wood, where they enjoyed a picnic supper in the spacious back yard of the hostess's home, Monday evening.

The aroma of the cooking of the hamburgers on the oven, added a delightful note to the delicious supper, gaily enjoyed.

The class held a meeting in the home after the supper hour, with Miss Martha Jean Easter, the president, presiding. During this time plans were made for the morning worship, next Sunday, May 10.

### Mr. Palmer Honored

Mr. Thomas Palmer was guest of honor at the home of his granddaughter, Mrs. Donald Allison, for a delightful day.

Included with the guest of honor were Miss Shirila Palmer, Mr. and Mrs. Oris Knapp, and son, Donald, of Washington C. H., Mr. and Mrs. Bethel Palmer, Jeffersonville, and Mr. Donald Allison, of South Solon.

## Mrs. Tipton Opens Home to Tuesday Kensington Club

Mrs. Forest F. Tipton threw open her attractive home on Dayton Avenue for a delightful meeting of the Tuesday Kensington Club, and included Mrs. Harold Slagle, Mrs. Charles Reinke, Mrs. S. A. Dewey, Mrs. J. E. Magly, and Mrs. Grace Goodwin as guests with the circle of club members.

Lilacs in profusion and a wreath of May blooms, were in lovely arrangement throughout the rooms.

Eight covers were laid at the dining table, with two small tables arranged in the handsome room, seating the additional guests for a dessert course. A large cutglass bowl filled with lilacs, was a fragrant and colorful centerpiece for the large table, with similar smaller vases on the other two.

A pleasurable afternoon of visiting over the needlework was enjoyed, with three small visitors, Linda Magly, Carolyn Reinke, and Phillip Sheets Jr. adding to the pleasantness, their antics highly entertaining the ladies.

## Last Meeting of Kensington Club Held Tuesday

One of the loveliest sessions of the Bloomingburg Kensington Club was entertained by Mrs. James Woodland, Tuesday afternoon. It was the last meeting of the year, with the election of officers an important feature. The same officers were retained for another year, Mrs. Martha McCoy, president, Mrs. Charles H. Parrett, secretary, and Mrs. Bertha Porter, treasurer.

A beautiful memorial service was given for Mrs. Olive Stitt, a beloved member who died recently. Mrs. Parrett read a memoir, followed by Mrs. Mary Scott singing very sweet, "Lead Kindly Light." Mrs. Sercepta Short gave a prayer.

A very enjoyable afternoon was spent in visiting over the needlework in the lovely home, with its numerous bouquets of brilliantly colored tulips, prettily arranged, and bringing the pleasures to a close, Mrs. Woodland served a delicious collation.

### Women's Relief Corps

The Women's Relief Corps met Tuesday evening for a delicious potluck supper and an entertaining evening.

The supper consisted of most tempting dishes, and the other was extremely gay.

During the business meeting, plans were made for the presentation of a flag to Rose Avenue School.

### Luncheon Reservations

It has been urged that members of the Mothers Circle to please have their reservations for the annual luncheon on Monday, May 11, in to Mrs. Harold McCord not later than Friday.

The affair will held in the Sunnyside Auditorium.

### MOTHER'S DAY

Dear Mother's Day—a blessed day,  
When all should honor her,  
Who loves them from their birth  
To the end of their life's day,  
Through all that may occur.

Dear Mother's Day—let's not forget;  
If living, give her cheer;  
Go home to her or letter send,  
Show that to you she's dear.

Dear Mother's Day—a day of love,  
And if she's passed away—  
A flower of white wear o'er your heart;  
Still for her guidance pray.

(Continued from Page One)

moved into Madagascar to prevent a threatened Axis seizure of the strategic island, which commands Allied sea communications to the Middle East, India and China.

France's pro-German Premier Pierre Laval bluntly ignored the warning contained in an American note to Vichy that "any warlike act permitted by the French government against the government of Great Britain or of the United States would, of necessity, have to be regarded as an attack upon the United Nations as a whole."

While French planes fiercely attacked the British occupation forces, a Madagascar communique disclosed that the French had lost two out of three light naval units which dashed out of the Diego Suarez base yesterday in a desperate foray against British warships.

The communique said British gunners sank the 1,379-ton submarine Beveziers and the Bougainville, variously described as an auxiliary cruiser. Most of the crews were saved.

Madagascar's land forces were estimated in London at 1,500 Frenchmen and 3,700 Colonials.

Vichy dispatches said several British planes were shot down by anti-aircraft guns and some of the light British tanks put ashore had been destroyed.

Newspapers in unoccupied France played the story with flaring headlines, but editorial comment was restrained.

Other European war developments:

Russian Campaign—Adolf Hitler's field headquarters reported German siege guns started fires in Leningrad and asserted communications had been restored with a German army long encircled on the northern front.

This apparently referred to the bloody Staraya Russa sector, 120 miles south of Leningrad, where the Nazi 16th army of 96,000 men had been reported trapped for months.

Soviet Guerrillas operating in the vicinity of German-held Orel, 200 miles below Moscow, sent a letter to Premier Joseph Stalin reporting that they had killed 5,000 German troops in the last six months, wrecked 16 troop trains, 340 trucks, 29 planes and 33 tanks, blown up 100 bridges and liberated 345 villages.

Soviet front-line dispatches said more than 1,500 Germans had been killed on the Kalinin front northwest of Moscow in 72 hours of fighting and declared the Nazis were displaying signs of nervousness by sending up star shells to illuminate no-man's land each night.

Heavy fighting was reported around long-besieged Leningrad, where the Russians said they had stormed and overrun German positions.

Aerial Warfare—Britain's great bombing offensive struck at German war foundries in Stuttgart for the second night in a row, attacked other targets in southern Germany and blasted Nazi airdromes in northern France and the low countries.

German warplanes carried out light attacks against England's southeast coastal districts.

aircraft and fighter plane opposition, a U. S. army air force headquarters communique said, intimating that Mingaladon was perhaps the chief of all the Japanese air bases in Burma.

On the Burma war front, latest dispatches indicated that the last chapters of another Allied defeat were being written.

With storied Mandalay and Lashio at the gateway to China already in enemy hands, imperial Tokyo headquarters reported that Japanese troops striking toward India had captured Akyab airfield on the Burma coast.

Akyab, 60 miles south of the Burma-India border, is only 300 miles airline from the great Indian city of Calcutta.

Dispatches from British headquarters at New Delhi, India, said Burma's weary British and Chinese defenders were falling back at an accelerated pace while rearwards put up a last defiant resistance.

Other reports said Gen. Harold Alexander's British army retreating from fire-blackened Mandalay was still intact and had escaped a serious threat of entrapment as it fell back toward India.

On the left flank, where the Japanese have already stormed up the Burma road into China proper, parts of the American Lieut. Gen. Joseph W. Stilwell's hard-fighting Chinese army were reported scattered in small pockets for 100 around Lashio.

Unarmed American and British airmen were carrying out the hazardous job of evacuating as many troops and refugees as possible amid constant danger from Japanese fighting planes.

It seemed clear, however, that for all practical purposes the bloody four-months-old battle of Burma was over.

## CORREGIDOR FORT FALLS AFTER 28-DAY SIEGE; DEFENDERS EXHAUSTED

(Continued from Page One)

on Corregidor on May 5, and that final shelling by Japanese 240 millimeter siege guns had destroyed barbed-wire entanglements and other defenses.

Japanese shock troops, he said, crossed the narrow stretch of water from Bataan to Corregidor in a large fleet of steel barges for the direct assault.

Since December 29, when 35 Japanese bombers subjected Corregidor to a three hour attack, that island alone had 300 air raids. For the most part, sharp shooting gunners in the fortress kept raiding bombers at such high altitudes that their aim was ineffective.

The final, long-awaited attempt to storm the island was preceded by a day which saw the fortress bombed 13 times and shelled almost continuously for five hours.

The persistent shelling from both sides of the harbor was believed to have worn down and blasted away the island's shore defenses, which presumably included pill boxes, barbed wire entanglements and other obstructions.

Besides Fort Mills on Corregidor, Forts Drum, Frank and Hughes on three other smaller islands guarding the entrance to Manila Bay succumbed to the tempestuous Japanese attack.

Corregidor alone had undergone more than 300 air raids and in the final day before the Japanese landing attack had been dive-bombed 13 times and shelled incessantly for five hours.

Most of Corregidor's shore defenses—pill boxes, barbed wire entanglements and other obstructions—were believed to have been blasted away.

The victory which the Japanese won at great cost gave them control of the best harbor in the Orient and strengthened the long communications lines they have thrust toward Australia and India.

American-Filipino troops continued to plague the enemy with guerrilla warfare in various parts of Cebu, Mindanao and Panay islands.

It was believed here, although there was no official word, that General Wainwright remained with his troops to the end.

Running desperately low on food and ammunition, the tiny American-Filipino garrisons had received a heartening message from President Roosevelt shortly before the end.

"You have given the world a shining example of patriotic fortitude and self-sacrifice," the President said.

"The American people ask no finer example of tenacity, resourcefulness and steadfast courage . . . you have become the living symbols of our war aims and the guarantee of victory."

The fall of Corregidor, giving Japan's invasion armies control of the best harbor in the Orient, capped a series of other Japanese conquests including: Hongkong, December 25; Manila, January 2; Singapore, February 15; Batavia, March 5; Rangoon, March 8, and Bataan, April 9.

## PRAISE FROM AUSTRALIA

**CANBERRA, Australia, May 6.**—(AP)—Prime Minister John Curtin declared today that "there will be no dismay at the news of the fall of Corregidor; rather will there be a feeling of pride and admiration."

"The fact is," he continued in a statement, "that a very small force of brave men has held the world's attention by an amazing stand against the armed might of a foe greatly superior in manpower and machines."

"The government and people of Australia send to the government and people of the United States at this moment a message of congratulation and thanks for what their men did at Corregidor. The stand there upset Japan's war strategy and gained precious time."

"Corregidor takes its place in world history. We had our Tobruk. America has its Corregidor."

"Standing to that spirit of dauntless gallantry we can not lose. Our heads are high; our hearts are not heavy. We shall go on."

"General MacArthur said when he came to our country that he would go back to the Philippines. That is a solemn pledge we shall most certainly help him keep."

## Markets And Finance

### MARKETS AT A GLANCE

#### CHICAGO

**WHEAT:**—Unsettled; flour demand disappointing.

**CORN:**—Higher; good shipping demand.

**HOGS:**—Steady to 10c higher; top \$14.20.

**CATTLE:**—Steady to 25c higher; very small supply.

#### NEW YORK

**STOCKS:**—Easy; leaders decline; specialties resistant.

**BONDS:**—Steady; some utilities advance.

### GRAIN MARKET NEWS SUMMARY

**CHICAGO, May 6.**—(AP)—Taking the market leadership, corn prices today registered gains of as much as a cent a bushel in reflecting good demand from shipping interests and industries.

Wheat, however, lagged behind after an early advance of about ½ cent and at times showed small net losses. Buying of previous short sellers lifted May soybeans more than 2 cents at one stage. Disappointing flour demand and favorable crop reports helped to check the advance in wheat.

Wheat closed ½c off to ¼c up. May 1.21½, July 1.24½-¾; corn ½-1½c higher. May 86½-¾c, July 89½-¾c; oats ½-½c up; rye ¼c higher; soybeans 1-2½c higher.

### BLAME FOR PLANE CRASH ON CHILLICOTHE PILOT

**ORLANDO, Fla., May 6.**—(AP)—The crash of a multi-engine bomber and a pursuit plane, fatal to four second lieutenants and three privates, was caused by the failure of Lieut. Robert S. Boyce, 23, of Chillicothe, Ohio, pilot of the pursuit craft, to judge accurately the speed of the two ships, an army board of inquiry reported today.

The midair collision occurred April 29.

### HAWAII BUYS BONDS

**HONOLULU, May 6.**—(AP)—John Snell, deputy administrator for the sale of War Savings Stamps, said a final tabulation showed Hawaii's May Day quota of \$250,000 had been over-sold four times for a total of \$1,017,755.
